What are your ideas related to River Access and Recreation needs? What qualities of the Sandy River are important to you? How could your recreation experience be improved? Is more river access or visitor facilities needed and if so where? Where is additional management presence needed to improve resource protection, reduce conflict between recreation users, or discourage trespass on private lands? Is better visitor information needed?

What are your ideas related to Community and Trail Connectivity needs? Are more trails needed and if so where and what type? Is new legal public access needed to provide better connectivity between existing trails, the river, communities and other key features and if so where? Are there places with conflict between different trail users or problems with private land trespass?

What are your ideas related to River Stewardship needs? What types of restoration projects are needed on public lands? What types of projects would you like to help with? What information or technical assistance do you think is needed to help promote good stewardship and restoration projects on private lands?

Any other ideas or comments - feel free to enclose additional sheets?
